Learning Objectives

Numerous studies have concluded that well governed organizations perform better in commercial terms and are less likely to suffer damage to reputation and profits. It is generally agreed that by adopting Corporate Governance best practices one can contribute towards the attainment of the following objectives with the respective companies' one is associated with:

- Improve access to external financing
- Lower the cost of capital
- Improve operational performance
- Improve share performance
- Reduce the risk of corporate crises

Course Structure, Modules & Topics | Program Design

Corporate Governance interplays with three key aspects to learn and practice. The regulation requires for a timely and accurate compliance whereas the organization requires setting up of the governance based systems and frameworks for efficient functioning to strengthen the performance indicators. The course modules have been designed to cater to the three requirements by blending the research based learning's with the insights and experiences of the industry experts. The overarching cohorts of the modules are as under:

- [Level I Compliance Based Learning](#) • [Level II Governance Based Learning](#) • [Level III Performance Based Learning](#)

Participants

The program is targeted for the following category of corporate governance professionals:

Board Members | Independent & Women Directors Senior/Middle level Executives of Legal, Risk, Finance, Compliance & Corporate Affairs Dept

Program Modules with specialized agencies the experts would be drawn for imparting the knowledge

Immersion 1: Setting the context for learning

Modules	Units
Module V Financial Stewardship and Accountability	<ul style="list-style-type: none"> ○ Financial Oversight using understanding of Financial Statements and Reports ○ Financial Reporting framework and regulation ○ Monitoring Internal Control Systems ○ Disclosure and Transparency–Board Report, Directors Report
Module VI Leading towards higher standards	<ul style="list-style-type: none"> ○ Developing an Action Plan using Balanced Scorecard ○ Leading Change by Integrated thinking ○ Managing Culture, Conflicts and Collaboration

Immersion 3: Interaction of participants with Industry experts would help them to develop a convergence of knowledge with practice related challenges they face in their respective companies for enhancing the corporate governance standards.

H Course Delivery Methodology: The course would be delivered adopting a Hybrid Approach considering the diverse group of participants and the challenges of adult learning. The program would provide them with the opportunity to have learning engagements by attending to IICA face to face expert interaction meet ups which would be in the beginning, mid and end of the course. This would be supplemented with the online interaction on various topics by having them attending to the program using the Learning Management System called Black Board. This would provide you with an opportunity to connect at your convenience from far and wide while saving on the cost of spending money and time by attending to the course on a regular basis at the campus. In case you are unable to attend to the class you can access the online recording of the session and do not lose the thread of discussions.
